

Who are our highlights?

Perhaps you will like to explore some of our inspiration & frameworks.

We are not alone in our quest.

There are others with similar questions and we want to draw from their understanding of the world.

Here we present our four main references:

"Three horizons is a simple and intuitive framework for thinking about the future. At its simplest we can see it as describing three patterns of activity and how their interactions play out over time. The framework maps a shift from the established patterns of the first horizon to the emergence of new patterns in the third, via the transition activity of the second."
